Diane-Paris SS2019

is about romance & femininity with whimsical florals, pastels & lace give the collection an enchanted fairy tale feel.

All pieces are limited edition designed & made in Europe from hand selected Parisian fabrics. Soft cotton, silk mixes & broderie anglaise are the focus for this season, from sultry off the shoulder blouses to feminine & floaty dresses. Playful lace shirts have gorgeous attention to detail such as the tiny pearl buttons on the delicate cuffs. High waisted pants in pleated fabric keeps the figure flattering & fashionable.

The versatility of Diane Paris's new collection will ensure that you will look glamorous - whatever the occasion through spring & summer.

A woman with dark hair is standing on a rugged, grey rock formation. She is wearing a wide-brimmed straw hat with a blue ribbon tied around her neck. Her outfit consists of a white, sleeveless top with thin straps and a long, flowing white skirt with intricate gold embroidery. She is barefoot and looking off to the side. The background shows the ocean and more of the rocky coastline.
