DIANE

PARIS

ABOUT THE COLLECTION

DIANE – Paris is a sophisticated ready to wear fashion brand classic with a twist.

"For me, dressing up should make you feel good, comfortable and confident. When you feel good outside, you feel good inside"

The AW20 collection has been inspired by the latest European looks tailored for winter in South African, where vibrant colour and polished neutrality live side by side. The collection includes shades of white to bold colours to express yourself in everyday life.

Specific attention has been given to a wide range of high-end athleisure items to provide comfort between home, work and travel.

The collection also includes high-waist pants, crop tops and jackets, timeless blazers, tweed dresses, two piece sets and coats, designed to meet your everyday needs.

Our fabrics are hand-picked in Paris, from super soft eco leather, warm cashmere to feminine silk.

I hope you will enjoy this collection as much as I do.
